Models of Team Effectiveness Built on Trust
What does Trust have to do with Team Effectiveness?

Have those examining teams and team effectiveness **discovered the role of trust on teams?**
Team Performance and Engagement Models

Google’s Model of High-Performing Teams

Google discovered high-performing teams have 5 dynamics in common.

The level of Psychological Safety felt by team members is far and away the most important of the five dynamics and directly impacts the other four dynamics.

“Who” is on a team matters less than “how” the team members interact, structure their work, and view each other and their contributions.
Team Performance and Engagement Models

**Lencioni’s Model of 5 Dysfunctions of a Team**

There is no team without the presence of trust.

The **Absence of Trust** is a key dysfunction that derails a team’s functioning, engagement, satisfaction, and productivity.

Lencioni recommends initial focus on any team development / effectiveness initiative needs to be on trust among team members.

Like us, Lencioni advocates using proven models like the MBTI® Assessment & team-building framework to help teams build awareness and openness.

Model #2

[Diagram of Lencioni's model showing layers: Absence of trust, Fear of conflict, Lack of commitment, Avoidance of accountability, Inattention to results]
To achieve high performance teams need to operate on trust.
How Does Trust Measure Up in our Global Workforce?

Fewer than ½ of global professionals trust their employer, boss or team/coworkers.
The Stakes

- In its 2016 global CEO survey, PwC reported that 55% of CEOs think that a lack of trust is a threat to their organization’s growth.

- But most have done little to increase trust, mainly because they aren’t sure where to start.

Virtual or Remote Teams
What do you think?
Is it easier or harder to spot lack of trust in virtual teamwork settings?
Can Trust be Seen?

- Trust is perceptual.
- On a team, it is about an Individual's perception of:
  - How safe the team is for risk taking in the face of being seen in an undesired light
  - The consequences of taking an interpersonal risk for asking questions, offering new ideas, and admitting a mistake.
- Behavior can at times be an indicator of trust or the absence of trust.
- Those behaviors can be starting points for validation, dialogue, commitment, and planning.
Trust Assessment: How is Your Team Doing?
Activity | *Signs that Your Team Needs to Improve*

You will now be invited to do a 5-minute reflection on whether behaviors rooted in a lack of trust may be present on your team.
Activity | Signs that Your Team Needs to Improve

Please think about and select a work team for this exercise.

Could be a team you are on, a team you manage, or a team you support.

Note: We will use this team throughout the webinar as we apply different tools.
Activity | *Signs that Your Team Needs to Improve*

**Live Pulse Check in ~5 minutes**

- We will look at 15 behaviors in total (Not an exhaustive list. You can add more).
- I will show you 3 behaviors at one time.
- As each set of behaviors is revealed, make a quick note to yourself whether 0, 1, 2, or all 3 of the behaviors on that slide are present on your team.
- As we go along, you can share your answer if you feel comfortable doing so.
- Ultimately, we don’t know which team you are thinking about and this exercise is for you. Be as accurate as possible.

**Write Down for Each Slide:**

“0, 1, 2, or 3 of the behaviors on this slide are present on my team”

**Share your responses, if you feel comfortable doing so.**
• Fear of asking for or giving constructive feedback
• Hesitance around expressing ideas, especially if divergent
• Reticence to ask clarifying or “silly” questions

**EVALUATING TEAM TRUST GUIDE**

**Evaluating Trust in Teams**

To achieve high performance, teams need to operate on trust:

- Trust is a perception and the level of trust on a team can often be difficult to ascertain. At times, focusing on behavioral indicators of trust can be a useful first step in measuring and building trust on a team.

- Spacing a list of items on a team can be challenging. This document walks you through one possible framework for measuring and building trust on a team. This guiding framework includes six sequential steps, as listed below:

1. Identify the trust you are missing/ /support.
2. Evaluate the team using the sample checklist for spotting a lack of trust on the team.
3. Review your list to identify the frequency of observed behaviors.
4. Prioritize the most pressing issues for your team.
5. Complete the action plan for each pressing issue.
6. Reassess for positive gains/ Iterate.

This framework can be used for additional teams you might be a part of, manage, or support in some capacity.

Let's begin:

**Step 1:** Select a team you are on: manage / support.

- Identify the team you would like to evaluate. This could be a team you are a part of, manage, or support. Enter the team name in column as you work through each of the remaining steps.

For your reference, list the team name / description and the date of evaluation in the boxes below:

### Action Planning

#### Evaluating Team Trust Guide

**Step 5: Complete an action plan for each pressing issue**

List the top 3-5 behaviors you marked as most pressing in Step 3. Next, fill in the action planning sections to begin to identify ways you might go about addressing each one.

Humanizing Team Members

Since the MBTI team development event, trust has improved considerably across the team and each team member is empowered to bring their unique style and get to the core of the problem much more effectively and efficiently.

"Where teams understand each other and there is trust, communication starts to flow naturally... Since using the MBTI, people are reporting marked improvements in personal effectiveness, and have a much more productive perception of their colleagues."
Strategy #5: Enhance Communication

**Enhance Communication**
- Clear and consistent communication norms
- Cascade communication
- Organizational Transparency
- Manager / Leader Transparency
- Peer-to-peer Transparency
